

It is un-American to abuse the ownership of broadcast airwaves which Sinclair is doing at this most critical time in our nation's democracy.

If Sinclair is allowed to go forward and air the anti-Kerry documentary before the November 2nd election, it must be fined or given some sort of reprimand for this undemocratic behavior.

This is a perfect example of what everyone is afraid of as more and more corporations consolidate media power into their few hands.

Media should remain neutral and balanced!

I demand that Sinclair not be allowed to air this documentary, and if it does will participate in any boycott that may be started against its advertisers!
